The Knowledge Organiser is divided into four sections:

- Number and Algebra
- Ratio, Proportion and Algebra
- Geometry and Measures
- Probability and Statistics

Each section contains a summary of the key concepts, as well as practice questions and exam-style questions. The Knowledge Organiser also includes a glossary of key terms and a list of useful resources.

How to use the New GCSE Maths Edexcel Knowledge Organiser Foundation

The Knowledge Organiser can be used in a variety of ways, but the most effective way to use it is to revise regularly. It is important to start revising early, and to revise little and often. This will help you to retain the information that you have learned.

When you are revising, focus on one section of the Knowledge Organiser at a time. Read through the summary of the key concepts, and then try to answer the practice questions. If you get stuck, don't worry! Just move on to the next question and come back to it later.

Once you have answered all of the practice questions, try to answer the exam-style questions. These questions are designed to be challenging, but they are also a good way to test your understanding of the topic.

If you find that you are struggling with a particular topic, you can use the glossary of key terms to look up the definitions of any words that you don't understand. You can also use the list of useful resources to find additional support.
