## **How to Prepare for Marriage**

If you're sure that you're ready for marriage, there are a few things you can do to prepare:

- **Get premarital counseling.** Premarital counseling can help you and your partner identify and address any potential problems in your relationship. It can also help you develop the skills you need to build a strong and lasting marriage.
- **Talk about your expectations.** It's important to talk to your partner about your expectations for marriage. This includes discussing things like communication, finances, and child-rearing. By talking about your expectations upfront, you can avoid misunderstandings and disappointment down the road.
- **Create a budget.** Marriage can be expensive, so it's important to create a realistic budget before you get married. This will help you avoid financial problems and stress in the future.
- **Make sure you're both on the same page about major life decisions.** Before you get married, it's important to make sure that you and your partner are on the same page about major life decisions, such as where to live, how many children you want, and what kind of lifestyle you want to live. By making sure that you're both on the same page, you can avoid conflict and disappointment in the future.

Marriage is a beautiful and rewarding institution, but it's also a major life decision.
